Introducing to you : “Alfresco”

The concept for our wide hobby vegetable range

Beekenkamp Ornamentals has a wide range of hobby vegetable plants. Grafted and non grafted. Due to our experience in the cultivation of both ornamental and vegetable plants, we are a strong player in the hobby vegetables market. All our seedlings are from well-known companies with high-quality breeding and are certified. We work closely with the breeding companies to ensure you get the best plants. Alfresco literally means: “good food in the open air” and that is exactly the goal of our hobby vegetable range.

Besides a great taste and a wide range of vegetables, Alfresco has more to offer. Alfresco responds to all current trends. The name “Alfresco” says it all: Fres(h). The consumer growing their own vegetables and fruit in the comfort of their own home and garden. It doesn’t get fresher than that. It offers relaxation, contributes to a more sustainable world (less packaging, more greenery) and provides fun and education for young and old. The hobby vegetables from Beekenkamp Plants are grown according to strict hygiene rules.

Wir stellen Ihnen vor : “Alfresco”

Neben einem großartigen Geschmack und einer großen Auswahl an Gemüse hat Alfresco noch mehr zu bieten. Alfresco reagiert auf alle aktuellen Trends. Der Name „Alfresco“ sagt schon alles: Frisch.
