Introducing to you : “Alfresco”

The concept for our wide hobby vegetable range

Beekenkamp Plants Ornamentals has a wide range of hobby vegetable plants. Grafted and non grafted. Due to our experience in the cultivation of both ornamental and vegetable plants, we are a strong player in the hobby vegetables market. All our seedlings are certified and from well-known companies with high-quality breeding. We work closely with the breeding companies to ensure you get the best plants. Alfresco literally means: “good food in the open air” and that is exactly the goal of our hobby vegetable range.

Besides a great taste and a wide range of vegetables, Alfresco has more to offer. Alfresco responds to all current trends. The name “Alfresco” says it all: Fres(h). The consumer growing their own vegetables and fruit in the comfort of their own home and garden. It doesn’t get fresher than that. It offers relaxation, contributes to a more sustainable world (less packaging, more greenery) and provides fun and education for young and old. The hobby vegetables from Beekenkamp Plants are grown according to strict hygiene rules.
