INTRO

Our Cyclamen young plant offering is built around one clear objective: delivering the right quality plants in the most efficient way. From sowing to delivery, every step is carefully managed to ensure consistency, reliability and strong grower performance.

With decades of experience in Cyclamen production, we understand that efficiency is essential throughout the entire chain. By focusing on a well-balanced assortment and optimised production planning, we can achieve maximum quality, dependable availability and sustainable use of resources. This approach benefits the whole supply chain.

At Beekenkamp, sustainability is an integral part of the way we work. Our entire Cyclamen range is supplied in the BKX tray, a durable and reusable tray system developed to support modern, efficient growing. Besides reducing waste through repeated use, the BKX tray enables smooth handling and seamless integration into automated potting processes, helping growers work smarter every day.

The result is a Cyclamen programme that combines expertise, quality and efficiency, ensuring reliable young plants that form the foundation for successful production.

Ons assortiment jonge Cyclamenplanten is opgebouwd rond één duidelijk doel: de juiste plantkwaliteit op de meest efficiënte manier leveren. Van zaaien tot levering wordt iedere stap zorgvuldig aangestuurd om een constante kwaliteit, betrouwbare levering en sterke teeltprestaties te garanderen.

Met tientallen jaren ervaring in de productie van Cyclamen weten we dat efficiëntie essentieel is binnen de gehele keten. Door te focussen op een uitgebalanceerd assortiment en een optimale productieplanning kunnen we maximale kwaliteit, betrouwbare beschikbaarheid en een duurzaam gebruik van grondstoffen realiseren. Deze aanpak komt de hele keten ten goede.

Bij Beekenkamp is duurzaamheid een integraal onderdeel van onze werkwijze. Ons volledige Cyclamenassortiment wordt geleverd in de BKX-tray, een duurzaam en herbruikbaar traysysteem dat is ontwikkeld voor een moderne en efficiënte teelt. Naast het verminderen van afval door hergebruik zorgt de BKX-tray voor een soepele verwerking en naadloze integratie in geautomatiseerde oppotprocessen. Zo kunnen kwekers iedere dag slimmer en efficiënter werken.

Het resultaat is een Cyclamenprogramma waarin expertise, kwaliteit en efficiëntie samenkomen, met betrouwbare jonge planten die de basis vormen voor een succesvolle teelt.
