PELARGONIUM 2026/2027

**HÖRN
HEMS**

Kära kund,

Tiden går snabbt – och snart är det dags att rikta blicken mot odlingssäsongen 2027!

Hos Hörnhems ser vi det vi odlar som något mer än bara plantor. Det är början på något större – en vision om färg, skörd, livsglädje och välmående. Varje växt du erbjuder dina kunder blir en möjlighet för dem att skapa sin egen gröna plats – oavsett om det handlar om en stillsam rabatt eller en frodig och levande köksträdgård.

Inför säsongen 2027 har vi uppdaterat vårt sortiment med nya spännande inslag och beprövad kvalitet. Här finns både inspiration och ett genomtänkt urval som hjälper dig att möta dina kunders önskemål och idéer. Ta dig gärna tid att bläddra, inspireras och planera – vi finns här för att stötta dig hela vägen i att skapa en framgångsrik växtsäsong för både dig och dina kunder.

Varma hälsningar,
Anna Unné

Fabienne Monté – breeder Toscana®

The Toscana® breeding program

Breeding is a long-term process that requires dedication and patience. After careful selection, we are proud to present the following novelties.

We have updated the Trend series by improving Trend Hanna hot pink and introducing Trend Tine salmon.

In the important Smart series, we present Smart Valerie dark red next to the very popular Smart Senna Red. With the attractive dark red colour, Valerie completes the Smart series.

As amethyst is traditionally a difficult colour to breed, we are very pleased to introduce the improved Sunflair Amy. This variety fits better in terms of plant habit within the Sunflair series. The 'old' Amy will be moved to the Big5® series as Big5® Amethyst.

With the new Medio Fleur lavender, we aim to replace the well-known Medio Teske. For the coming season, both varieties will be available side by side.

In the Villetta series, we launch a new compact variety: Villetta Lilac a very attractive, well-branching addition.

Last but not least, we have updated Balcon Polar. The improved version shows stronger vigour, fits better within the Balcon range, and offers improved branching and earlier flowering.

Optimising the Toscana® Pelargonium series remains the goal, and step by step we are making good progress.

I will keep you updated!

About the Toscana® production

Toscana® is available as unrooted cuttings (URC) and as young plants. At our production locations in Ethiopia and Kenya we specialize in the URC production of Pelargonium. With a total of 37 hectares of well-equipped greenhouses, which are run by qualified and experienced staff, we supply from both locations a high production standard. This gives you the best quality against the lowest risk in supply change.

Moreover, we think and act sustainably. Our production locations are MPS-A certified (Environmental Programme for Ornamental Horticulture), covering crop protection products, fertilisers, energy, water and waste. Neonicotinoids are banned and to combat the negative effects of crop protection products, we use organic variants and work with Integrated Pest Management (IPM) wherever possible.

Beställ dina plantor direkt i vår web-shop!

Matnyttig information

På vår hemsida kan du bland annat se aktuella överskottslistor från våra leverantörer, om du får behov av fler plantor.

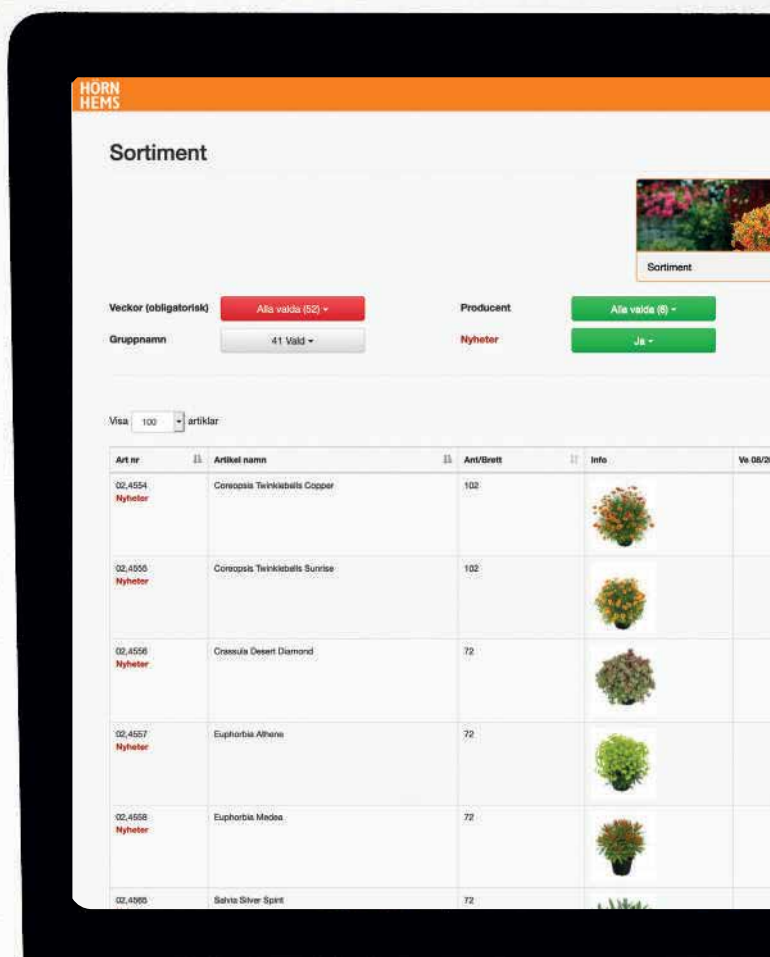

Vi har även en del odlingsbeskrivningar som du som kund kan ladda ner.

Dessutom försöker vi sprida information till dig som kund så ofta vi kan, så gå gärna in på vår hemsida.

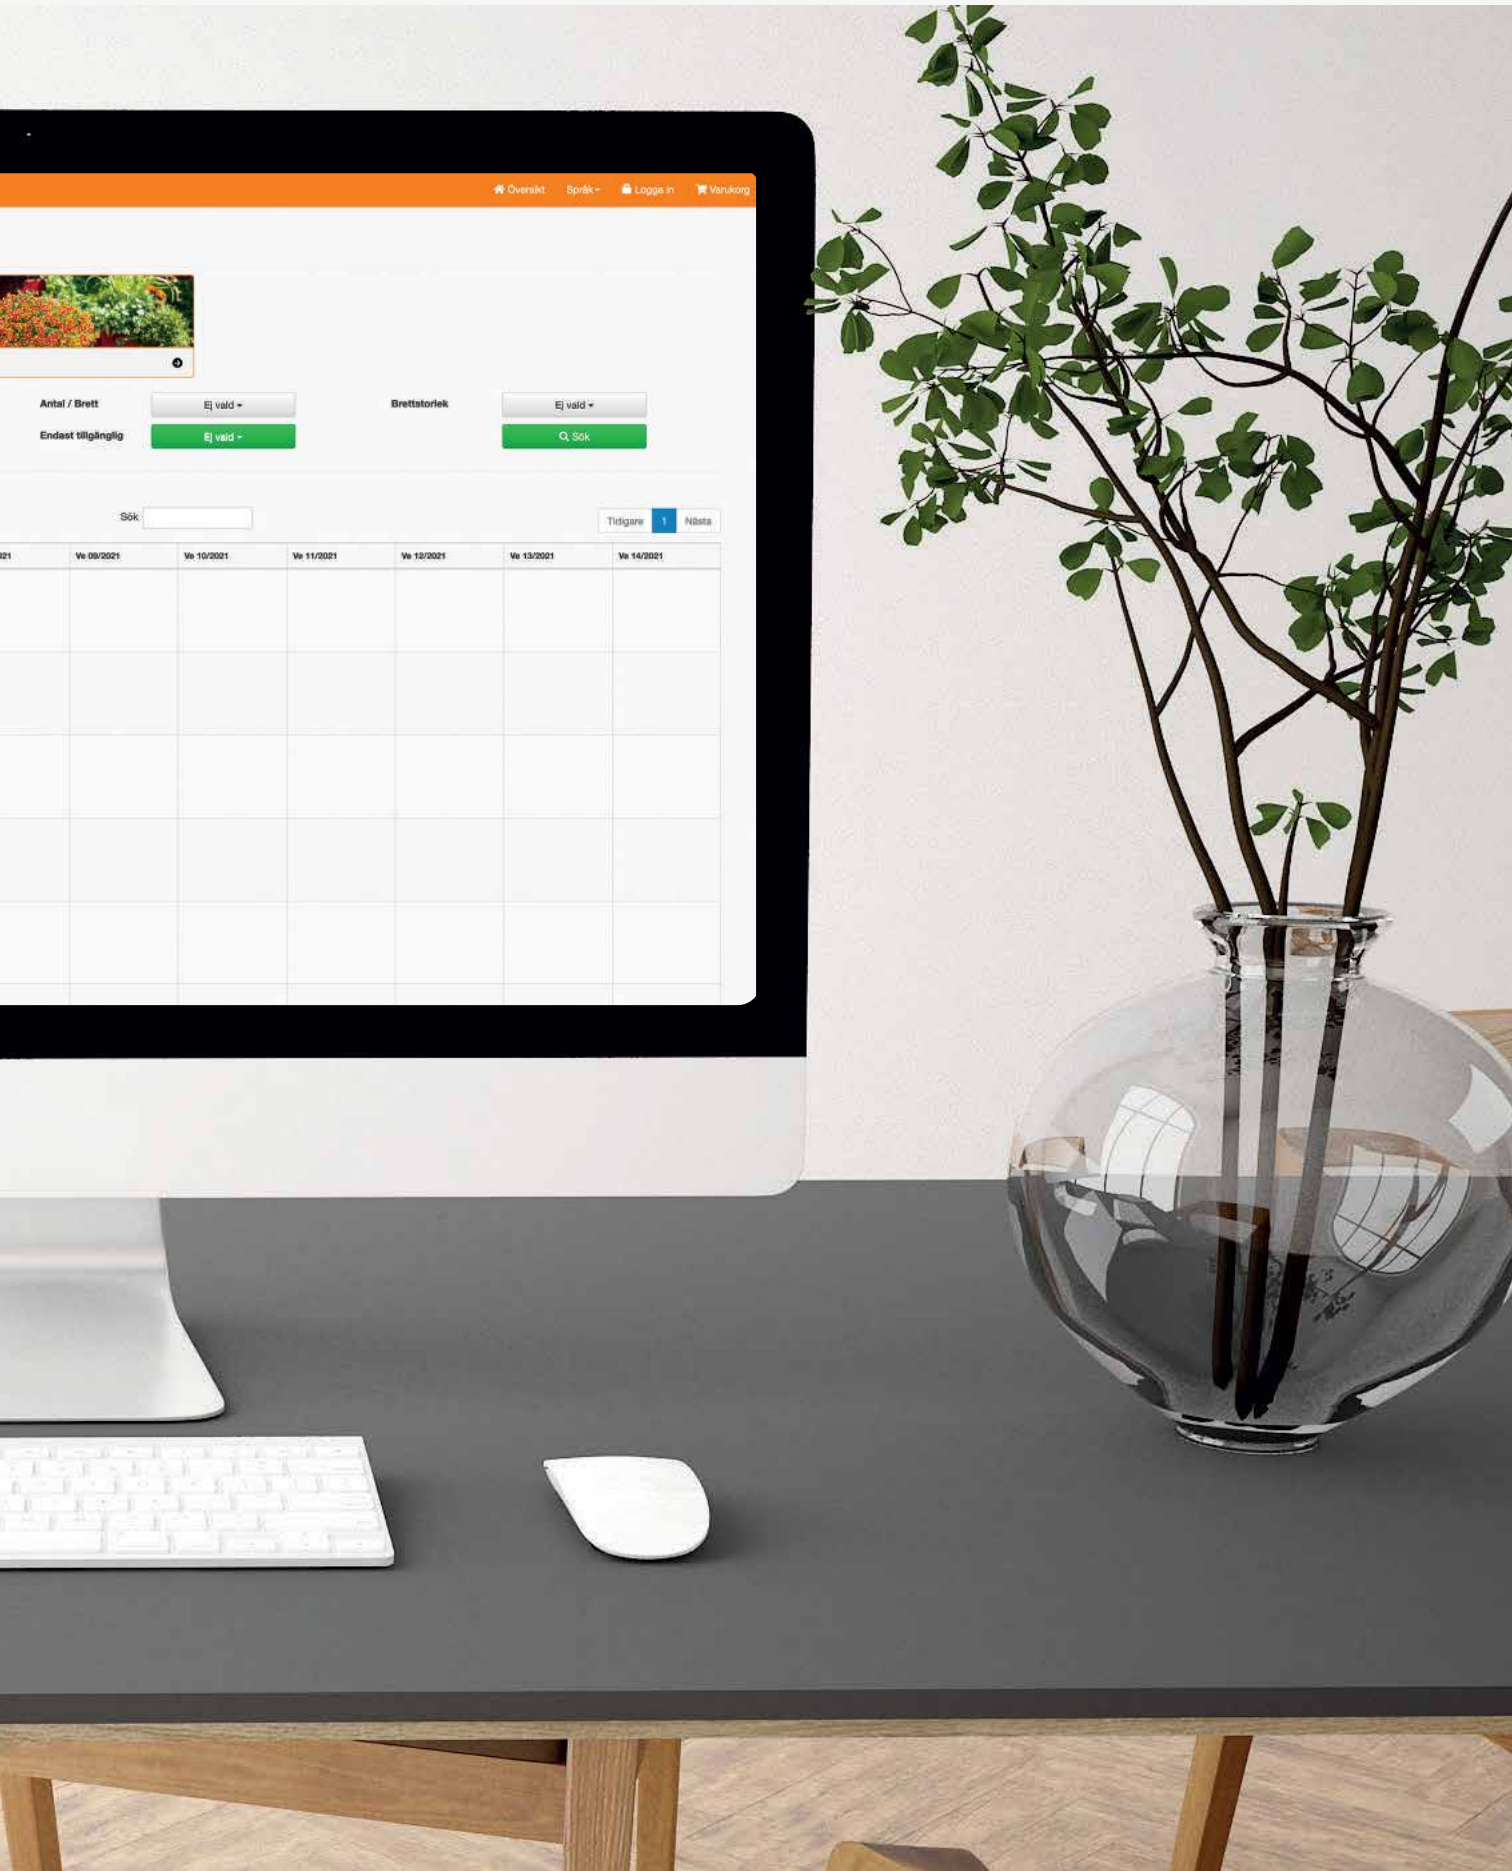

Vi har nu även en web-shop där du lätt kan lägga dina order, skicka förfrågan på överskott och hitta information om plantor, när det passar dig. Information kring beställning i shopen hittar du på hemsidan. Det går även bra att kontakta oss direkt.

La Dolce Vita

It's the small things that make life beautiful:
a glass of red wine in the sunset,
a cappuccino in bed or
a terrace full of outstanding pelargonias.
